

YESAB - Student Assessment Officer

Location: 1 Position available with the option of working in Whitehorse or Haines Junction

Age Requirement: 19+

Full-Time Position

Full job description

1 full-time summer student position, \$27 an hour
May-September 2026.

A hiring preference will apply for qualified candidates of Canadian Indigenous ancestry, with a priority for qualified Yukon First Nation candidates.

What's YESAB?

The Yukon Environmental and Socio-economic Assessment Board (YESAB) is an independent body established under the Umbrella Final Agreement and YESAA legislation in 2003. YESAB conducts environmental and socio-economic assessments of projects before they are approved by the governing body. Our purpose is to conduct neutral, timely, efficient, and effective environmental and socio-economic assessments in the Yukon.

Position Summary:

YESAB is seeking a motivated and detail-oriented Summer Student Assessment Officer to join our team for the summer months. This role provides a unique opportunity to learn about environmental assessment processes, contribute to project reviews, and develop professional skills in research, analysis, and communication.

Key Responsibilities:

- Assist in reviewing and summarizing project proposals and associated documentation.
- Support the development of reports, briefing notes, and assessment recommendations.
- Research environmental, socio-economic, and cultural considerations related to proposed projects.
- Participate in stakeholder engagement activities, including drafting communications and meeting notes.

- Provide administrative support to the Assessment team as required.

Qualifications:

- Currently enrolled in, or a recent graduate from, a post-secondary program in Environmental Studies, Geography, Natural Resources, Public Policy, or a related field.
- Located in the Yukon.
- Strong written and verbal communication skills.
- Excellent organizational skills and attention to detail.
- Ability to work independently and as part of a collaborative team.
- Interest in environmental assessment and sustainable development.
